Energy Healing & Sound

Energy healing processes are profoundly direct, effective and efficient. By creating a point of focus for the mind, sound forms an energetic grid through which previously blocked energy can flow.

This creates a healing mechanism of resonance and vibration, allowing sound to move to those parts of us that are "out of tune," returning it to its natural rhythm and frequency.

"...sound creates form and changing frequencies affect form at a cellular level." - Dr. Hans Jenny

OMMM REIKI MI

VIBRATIONAL
SOUND HEALING
& REIKI

*In Northern Middle English, the meaning of the word **health***

is "to make sound."

Sound, then, is the antidote...

What is a Vibrational Reiki Tuning Session?

What is OMMM Reiki Mi?

OMMM Reiki Mi is a synergy of healing methods integrated into a holistic approach to self-healing.

OMMM Reiki Mi includes the use of Reiki, both Tibetan and Usui methods through Chikara-Reiki-Do (Which is an integrated form of Reiki that allows Masters to attune themselves through using Living Water.), Hawaiian Ho’oponopono, and Tuning Forks: OTTO Tuners, The Perfect 5th Whole Body Tuners, Cellulite Reduction Tuners and Solfeggio Energy & Body Tuners.

The vibrating human body is a powerful healing machine! When all the bodies (emotional, mental, physical and spiritual) are nourished and “sound”....complete health and wellness can be rapidly realized.

We store life experiences as energy patterns in our energy anatomy and subconscious memory in our body tissue. Some of those experiences, especially ones we become attached to, create blockages interrupting the free flow of energy in our lives. The other factor in limiting our energy flow is that many of us live at “survival” level. We access and use only the energy needed to get through the day.

What happens if we can free the blocked energy; or better yet, access energy, which has been stored within our “energy anatomy?” What we have discovered is that when people receive an Vibrational Reiki Tuning, they frequently tell us that not only do they feel much better (spiritually, emotionally, and physically), but, they have often altered their life in some major way (change of career, moving, etc.). The ‘tuning’ activates the energy in the root energy center and raises it up through each energy center in succession allowing energy to freely flow.

When energy flows freely, new choices in our lives are awakened and we have new- found energy from within to make the

As a person increases in consciousness and awareness, it becomes necessary for energy to flow freely allowing the space for higher vibrational energies to integrate. Each time we receive a Vibrational Reiki Tuning, it helps to facilitate healing in our bodies and assists us to adjust to and integrate the higher vibrations that accompany a raise in consciousness.

Sound Healing combined with Reiki, (which is the channeling of Universal Life Force or Love energy into the body), takes on a powerful level of healing facilitation, allowing the energy to flow unhindered throughout the body. Healing can then be realized on all levels, emotionally, mentally, physically and spiritually. Reiki energy goes to where it is needed in the body. OMMM Reiki MI also utilizes Hawaiian Ho’oponopono, “I Love you, I’m sorry, Please forgive me, Thank you”. Since we are all one, what affects you, affects me...if you are in my reality, healing myself, heals you. This is the basic concept of Ho’oponopono. You can read more about it on our website. www.OMMMReikiMI.com

Session length of time range depending on the need of the client, anywhere from 10, 20, 30 or 60 minutes and are conducted fully clothed on a massage table. Sessions begin with an affirmation, clearing of the energy fields with a crystal and crystal tuner and use of the “OM” tuner (which is calibrated to the vibration of the Earth year).

The “OM” tuner, helps slow the mind to the Theta brain wave state, to take away the stresses of the day and assist in the mind allowing the healing facilitation. The “OM” tuning is followed by the specific tuning based on what the client needs. A basic tuning can assist in opening energy centers and raising the client’s energy level from survival to optimum vitality.

The Energy Scanning Technique is used to assist in finding and clearing out energy blockages from past events that the client is ready to release. Reiki, Ho’oponopono are used intuitively as needed on each individual depending on the intent and needs of the client.

All tuning stimulates the nervous system to respond by entraining to the tuning forks.

During a tuning many fall asleep, many will twitch, some find that they feel what is likened to “a whole body orgasm” and still others feel very little or have effects the days following a tuning. We recommend that you drink extra water and give your body nourishing foods and ample sleep as the effects of a Vibrational Reiki Tuning continue for several days following the initial treatment.

Above all, the most important thing to remember when receiving a tuning, is that you hold the intent that you are HEALED, you feel Love, Gratitude and Joy during and after the tuning.

FREQUENCY + INTENT = HEALING

SOUND + BELIEF = OUT-COME

VOCALIZATION + VISUALIZATION = MANIFESTATION

...Ultimately, you orchestrate your own healing. We only assist you in the facilitation of it.

Love & Healing Vibrations,

Shylo Love

Dr. Deepak Chopra on Sound:

“The body is held together by sound, and the presence of disease indicates that some sounds are out of tune... primordial sound is the mysterious link that holds the universe together in a web that is the quantum field.”

Dr. Andrew Weil on Frequency:

“The new science of psychacoustics -- the study of the effect of music and sound on the human nervous system -- shows that [frequency] can relieve pain, help stroke patients, and benefit other conditions.”
